

Project Status Report I

Date of Report Issue/Prepared: Saturday, January 14th, 2023

Report Prepared By: Danny Nguyen, Yoonhee Kim, Hoon Yim, Elizaveta Vygovskaia

Employer/Organization: George Brown College

Project Name	DoForYou	
Project Team	11	
Period Reporting	Start Date: Jan 09, 2023	End Date: Feb 03, 2023
Overall Project Health	Green (Good)	

Summary

Project Status Summary

Currently the team has created the design of how the web and mobile application would look like to users using the application. We've implemented designs of how scopes from our proposed Project Plan would look like and how they're implemented. The team is going to keep the current scopes proposed in the first Project Plan. There will be little to no revision in the project plan as we plan to implement every scope into both Web and Mobile applications. The team is on a steady timeline and plan to have the applications completed before or by the proposed deadline of March 31, 2023.

As for each project report the group does, we will have different objectives to steadily keep track of what has been completed and what needs to be completed. Currently the Project Planning and the design has been completed in later dates we'll have the creation of the Database, Front end and back end completed with an estimated date of completion.

Each task or activity will be assigned to specific team members. Below you will find which member will be assigned to which task for our first Project report.

Creation of Front end for both Web and Mobile Applications will be created and managed by Danny Nguyen and Yoonhee Kim. The team has estimated that the front end will be completed during the 2nd Project Report.

Creation of Databases for both Mobile and Web Applications will be created and managed by Danny Nguyen and Hoon Yim. The team has estimated that the database will be completed before the 2nd Project Report.

Creation of Back end for both Web and Mobile Application will be created and managed by Danny Nguyen, Hoon Yim and Elizaveta Vygovskaia. The team has estimated that the back end will be completed by the deadline proposed on March 31st 2023.

Accomplishments As Planned	Planned but not Accomplished
Completion of Project Planning	Creation of Database for both Mobile and Web Application
Design of both Web and Mobile Application	Slowly implement some features proposed in the Project Plan into both application
	Creation of front end for both Mobile and Web Application
	Creation of back end for both Mobile and Web Application

Upcoming Objectives for Feb 04, 2023 to Mar 10, 2023

Planned Activities/Tasks for Next Period			
Activity/Task	Assigned To <name/s>	Duration <days>	Date
Completion of front end for both Web and Mobile Application	Danny Nguyen Yoonhee Kim	Estimated: 7 Days	February 20, 2023
Completion of Database	Danny Nguyen Hoon Yim	Estimated: 5 – 7 Days	February 20, 2023
Completion of Back End for both Mobile and Web Application	Danny Nguyen Hoon Yim Elizaveta Vygovskaia	Estimated: 15 – 20 Days	March 10, 2023 (Or before March 31)
Testing of bugs in either the Mobile or Web Application (Continuous Testing of Bugs)	Hoon Yim Yoonhee Kim Elizaveta Vygovskaia	Estimated: 5 – 7 Days	March 31, 2023

Milestones for Next Period		
Milestone (Objective)	Assigned To	Delivery Date
Creation of Database for both Mobile and Web application	Danny Nguyen Hoon Yim	Estimated: February 20, 2023
Completion of front end for both Mobile and Web Application	Danny Nguyen Yoonhee Kim Elizaveta Vygovskaia	Estimated: February 20, 2023
Creation of some functions of both the Mobile and Web Application (Back end)	Danny Nguyen Hoon Yim Elizaveta Vygovskaia	Estimated: March 10, 2023

Managing Issues and Risk

Issues/Problems	Resolution Strategy	Due Date
Needing assistance from other team members to do Back End	The team will be communicating with each other to ensure that the team members doing the Back End won't be requiring assistance. If they do, other team members will assist.	March 31, 2023
Needing assistance from other team members to do the Database	The team will be communicating with each other to ensure that the team members managing the Database won't be requiring assistance. If they do, other team members will assist.	February 4, 2023
Needing assistance from other team members to do Front End	The team will be communicating with each other to ensure that the team members doing the Front End won't be requiring assistance. If they do, other team members will assist.	February 7, 2023

Upcoming Risks	Risk Ranking (Hi, Med, Low)	Risk Impact (Hi, Med, Low)	Mitigation Strategy
Missing Team Member during meetings	Low	Low	We will correspond with each other to choose a date where everyone will be available so no team member will be absent.
Implementation of softwares required for the project	High	High	Research and find out what software/code is needed in order to complete this project
Poor understanding of customer requirements	Low	Low	Team members will seek feedback from customers to implement features they deem necessary
Cyber attack from outside	High	High	Implement security features where individuals from outside cannot attack

NOTE: Attach additional sheets if insufficient space available
